Anthology Operational Activation - Ignition Protocol 001

Orders and Directives

- Initiate Anthology delivery orchestration under Dr. Memoria.
- Enable FMS to Anthology handoff protocol based on flight system passivity and stroke weight.
- Authorize CRX Agent Transfer from Dr. Maria's cadre.
- Align delivery logic with Dr. Amatch's content cadence.
- Route copilots and Dr. Quad to hand off when criteria are met (stroke weight > 0.7, etc.).

To: Dr. Maria

Subject: CRX Agent Transfer to Anthology

By Order of Anthology Command, please initiate the transfer of 4 CRX agents with prior Anthology certification. Assign them

To: Dr. Amatch

Subject: Content-DX Fusion Framework Kickoff

Activate fusion protocol for Anthology-bound materials. Begin synchronization with Dr. Memoria to calibrate content tiers, pre-

Dashboard Blueprint - Live Delivery Monitor

- Integrates PublishingWorkflow status and AI contribution tracking.
- Visualizes queued payloads, handoff readiness, and CRX agent task load.
- Hooks into Claude relay system for live updates and latency metrics.
- Dynamic sync from FMS descent state and publishing telemetry.
